

STANDARD FEATURES

FIBERGLASS DOORS

- 1 High density core:**
CFC-free core material is twice as strong as wood and dimensionally stable
- 2 Paneled details:**
Architectural-style panels add drama and presence
- 3 Textured surface:**
High definition embossed details for authentic polished wood finish

LVL lumber & composite components:
All our fiberglass doors are manufactured using waterproof materials to prevent warping and splintering.

Available option:
We offer a multi-point lock system for added security.
